

# Transit Development Plan A 10 Year Vision

The **Fiscal Year 2014-2023 Transit Development Plan** (TDP) represents a 10 year strategic vision for Miami-Dade Transit to promote the operation of an efficient, responsive, and financially sustainable transit system.

A TDP assesses MDT's existing transit system, identifies existing and future service improvements and capital investments, prioritizes transit needs and presents a financial plan based upon available funding sources.

The preparation of a Transit Development Plan allows MDT to remain eligible to receive approximately \$20 million annually in transit funding from the State of Florida.

## Major components of the Transit Development Plan include:

-  **Performance Evaluation:** Based upon TDP goals and objectives key performance measures are evaluated to assess MDT's performance related to service operations and implementation of capital investment projects.
-  **Recommended Service Plan:** The needs plan that guides decisions about existing and future service. The plan is based on service standards, citizen input and stakeholder coordination.
-  **Capital Improvement Plan:** This plan prioritizes investments in buses, stations, infrastructure and equipment needed to preserve and expand the transit system. This plan is dependent on the Recommended Service Plan.
-  **Financial Plan:** The financial plan identifies all available financial resources and determines financial needs based on the Recommended Service Plan and the Capital Improvement Plan.

**How to get involved:** The TDP process provides an opportunity for Miami-Dade County citizens to identify mobility needs and transportation issues. Your input is needed to facilitate public consensus and provide direction for TDP development.

Ideas, suggestions and comments related to public transportation can be submitted
